BRILLIANT SURFACES WORTH CELEBRATING

# Welcome to Acrilam

Acrilam **BRILLIANT SURFACES THAT REALLY ARE WORTH CELEBRATING**

On behalf of our company Acrilam we would like to introduce you to our range of Rauvisio Brilliant Hi-Gloss, Super Matt Acrylic and HPL Natural panels.

Our company has been manufacturing kitchen and furniture components for more than 25 years, we are an Australian-based company manufacturing in Melbourne, Australia. We have a great understanding of the importance of producing high-quality products added with strong workmanship, ethics and a strong emphasis on customer satisfaction.

Our choice of Acrylic laminate is Rehau's "Rauvisio Brilliant" which represents the latest trends in furniture design, interior design and brings the utmost quality to kitchens and bathroom products worldwide.

We believe that the best acrylic has to be applied with only the best adhesive and substrate available.

We only use Australian E0 MR MDF as our preferred substrate.

## Our Quality Policy

- To constantly improve our motivation, training and participation and quality management for our employees for stable, service priority and quality production.
- To utilize resources in the most efficient way in the way of progress in production, service, product variety and business development.
- Based on the philosophy of total quality, to reach the company and unit targets within the team spirit, to continuously develop and grow in the target markets.
- Providing 100% Customer Satisfaction by providing products and services in line with the standards and customer expectations on time

## Our Environment Policy

- Meet and even exceed the requirements of the relevant environmental legislation.
- To work continuously to improve the environmental management system.
- To minimize wastes, to prevent pollution and to reduce negative effects on the environment.
- Protecting the environment and spreading this principle to all the circles.
- Identify and mitigate risks for environmental emergencies as best as we possibly can.
- Reduce and prevent air and water pollution, leaks and spills and noise as much as possible.
- Reduce packaging use and waste, ensure recycling and reuse.
- To develop methods of conserving natural resources such as energy and water.

# Rauvisio Brilliant High Gloss

Acrilam's Rauvisio Brilliant High Gloss acrylic laminate emphasises the latest trends in furniture and living space design. The outstanding depth effect makes it a great alternative to high-end lacquered elements within surfaces, allowing you to create exceptionally beautiful, coated front panels.

The acrylic laminate material has numerous benefits, including long-term UV resistance – proven to last for at least 20 years of indoor use. Furthermore, it's a versatile surface with outstanding colour and shine, and can be cut to size using standard woodworking tools. If that's not enough to convince you, it can be bent and cut into virtually any shape, giving you total design freedom.

## Key Features

- Easy to work with & clean
- Workable with standard woodworking tools
- Up to 60% cheaper to produce than lacquered components
- Can be bent and trimmed to fit any design
- High gloss milling radius
- Colour-fast and UV-resistant
- Mirror like finish

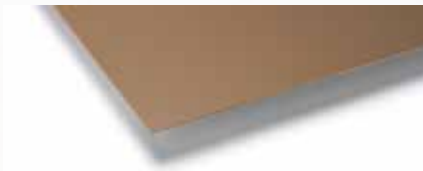

## Sustainability

Every stage of the supply chain for Acrilam's Rauvisio Brilliant High Gloss acrylic laminate surfaces is fully compliant with PEFC's requirements for sustainable forestry – from the forest all the way through to the point we dispatch our pressed wood panels and components to customers.

## Laminate

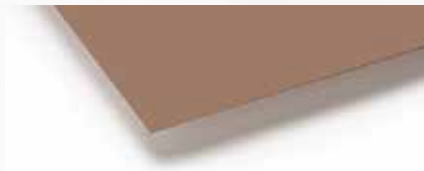

( L2800 x W1200 x H18mm / L2400 x W1200 x H18mm )

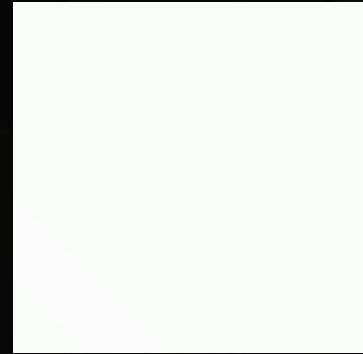

The thin acrylic laminate consists of a single PMMA/ABS layer, providing plenty of tensile strength to keep the surface smooth after processing.

## Balancing Sheet

( L2800 x W1200 x H18mm / L2400 x W1200 x H18mm )

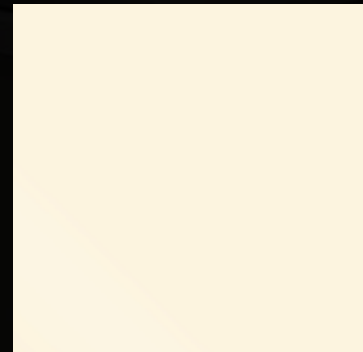

Our specially developed balancing sheet is a perfect colour match for the acrylic laminate. The strong materials used in our balancing sheets prevent the pressed board from warping.

# HPL Natural

Acrilam HPL Natural laminated panels are the preferred choice for Interior spaces including kitchen, bathroom and all joinery fit outs. They are durable, scratch-resistant, anti finger print and anti-bacterial to keep the inside environment healthy for you and your family. Acrilam HPL Natural laminated panels cares for your family, assuring you of a germ-free space that last for years thanks to our superior quality.

Our HPL Natural products come with antimicrobial protection on the surface which makes the laminated board germ free, preventing stains and bad odours. Acrilam HPL Natural Laminated panel products are non porous, highly resistant to chemicals, highly scratch resistant, anti finger print, anti bacterial and very easy to clean.

## Key Features

- Easy to work with & clean
- Workable with standard woodworking tools
- Up to 80% cheaper to produce than lacquered veneer components
- Anti-Bacterial and Anti-Finger Print
- Colour-fast and UV-resistant
- Natural timber / veneer like finish

## Sustainability

Every stage of the supply chain for Acrilam's Natural laminated surfaces is fully compliant with PEFC's requirements for sustainable forestry – from the forest all the way through to the point we dispatch our pressed wood panels and components to customers.

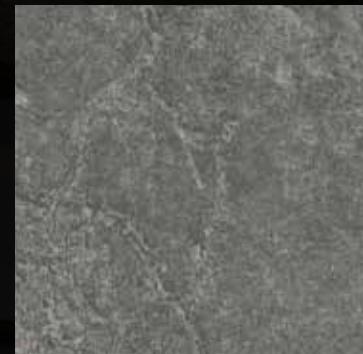

## Laminate (L2400 x W1200 x H18mm)

High Pressure Laminate (HPL) is composed of a resin impregnated kraft paper, a decorative paper and a clear melamine overlay.

These sheets are bonded at high pressures and temperatures to create High Pressure Laminates (HPL) which are then bonded to substrates such as MDF (medium density fiberboard) to create a laminated panel.
