

Product Care Your Acrilam decorative products are manufactured from the highest quality materials and designed to provide years of trouble-free service.

Whilst Acrilam products are made from either a Moisture Resistant Medium Density Fibreboard (MR MDF) or MDI (High Moisture resistant Board) and as with any wood-based panel cannot be made totally waterproof, care should be taken to wipe up spills immediately, ensuring the doors are not exposed to high or continuous levels of moisture, steam and humidity.

With alfresco or external cabinetry, these must be installed under a covered area and not exposed to direct sunlight.

An extended exposure to aggressive substances can leave behind marks or damage the material. Please do not use any aggressive cleaning agents, scrubbing agents or solvents. For matt surfaces, you can use a magic eraser after the cleaning, if needed.

Remove protective film immediately following installation. We do not recommend using a razor blade or any sharp objects to remove the peel coat. Once protective film has been removed, components can be cleaned with mild soap and water and a damp cotton cloth. Do not use brushes, scouring pads or any abrasive materials on surfaces. Avoid any solvent-based cleaners or harsh chemicals.

Cleaning

Step 1 Wipe down using a damp soft cloth containing warm soapy water, followed by drying using a soft or microfibre cloth so as not to leave any residue on the door or panel. If this is sufficient there is no need for any further action.

Step 2 For more stubborn stains, use a good quality streak free glass cleaner as per the manufacturer's recommendation. You may also use mild soap on a soft cloth, using a circular cleaning motion being careful not to rub too hard.

Step 3 Repeat Step 1 – Wipe down using a damp soft cloth containing warm soapy water, followed by drying using a soft or microfibre cloth so as not to leave any residue on the door or panel. ***Acrilam recommend using VuPlex Plastic Cleaner and VuPlex Matt (Available from Acrilam) with a Microfiber cloth to revitalise and maintain your Acrilam surfaces.*** Always ensure that you refer to the recommendations provided by the cleaning product manufacturer before use.

To ensure that your Acrilam warranty will not be void: ***DO NOT*** use any of the following on Acrilam decorative Boards which have a Rehau decorative finish or High pressure laminate finish: Commercial Cleaning Products, Abrasive Cleaners, Scouring Pads or Abrasive Papers, Acids and Alkalis, Solvents, Thinners, Turpentine (Turps), Ammonia, Bleach, Acetone, Easy-Off BAM!, M.E.K. or any other cleaning agents containing organic solvents or the above mentioned products. Avoid contact with sharp implements. Use range hoods whenever cooking, to avoid steam and cooking vapours from adversely effecting surfaces.

PLEASE NOTE: Acrilam provide a limited seven (7) year warranty on all board products which ensures against design, workmanship and manufacturing defects. If you detect any problems with your Panels or doors Acrilam must be notified within seven (7) years from the date your panels and or doors were manufactured. Failure to follow the above care instructions may result in damage to your doors and void your entitlement to the warranty. Acrilam warranty does not cover wear and tear. For More information refer to the Acrilam Warranty, Limited Terms & Conditions document.

Cleaning overview

Surface	General cleaning	Dish soap diluted with water	Strong solvents	Other acceptable cleansers
RAUVISIO brilliant	Only use microfiber cloths, no harsh chemicals or abrasives	Okay for use	Do not use	None
